Candle Care Tips:

Trim the wick to 1/4 " tall before every burn to keep the candle clean and even

Burn on a stable, heat-resistant surface away from flammable objects

Do not leave a burning candle unattended

Get 10% discount when you return your candle jar for reusing

During the first burn, let the candle melt to the edge of the glass jar. This guides the candle and prevents future tunneling

We advise that you burn the candle for a maximum of 4 hours at a time

Keep out of reach of pets and children

Discontinue burning the candle once you remain with 1cm of wax to avoid overheating the glass

Please note that our candles are hand-crafted and although every effort is made to ensure consistency in making our candles, some candles may vary. This gives them a unique charm and distinct character. This is a component of natural soy wax. Sometimes you may notice frosting in your container. This should not be a worry since the same is caused due to a drop in temperature while on transit which causes the wax to shrink slightly.
